

# Dub Hacks

Location: 6600 Dumbarton Circle, Fremont, CA

Date: TBA

# What is Dub Hacks?

Dub hacks is a 24 hours hackathon that is located in the hub of the Silicon Valley intended to give an opportunity to High School students to do STEM based extracurricular activities. Our goal is to bring students together and give them a chance to experience a time-crunch or a deadline for a product in the real world.

# Why Become a Sponsor?

At Dub Hacks we want to provide as many resources to help students solve real-world problems with STEM. In order for us to help students at Dub Hacks we need sponsors. By becoming a sponsor you are helping students solve real-world problems by providing them the resources.

# Where Will Your Money Go?

Your money will go towards making Dub Hacks a reality. It will allow us to provide students resources for projects, food, prizes and swag!

# How Will You Benefit from this event?

You as the sponsor will receive perks from our hackathon depending on the amount of money you donate to us. If you give us the Bronze tier amount (lowest) then you will receive some common perks such as branding/advertising on hackathon apparel/website and access to participants emails for recruiting purposes. If you give us the Diamond tier amount (Highest) then you will receive premium level perks from our hackathon. You will be able to give our keynote speech at the opening ceremony, advertise your company/product for as long as you want during our hackathon, recruit students before/during/after the hackathon, distribute promotional material, and provide internships/guidance for the overall winners of our hackathon.

**For a full list of Sponsorship perks based on tier check the next page**
